Abstract:

Should start on a new page after the title page and should be typed in single- space to distinguish it from the Introduction. Abstracts should briefly reflect all aspects of the study, as most databases list mainly abstracts. Short Communications as well as Review Articles should have an Abstract. The abstract should briefly describe the objective of the research. The word limit should be around 150-200 words.

Keywords:

Provide 4-5 keywords (catchword) separated by semicolon.

Introduction:

The Introduction section should start immediately after the abstract, as the next paragraph.

The importance of the study should be stated in the introduction section in a detailed manner. It should indicate the aim of the study.

Materials and methods:

This section must include the methodology and techniques used during the investigation. All the ethical permission associated in the research work must be specified.

Trivial details may be avoided. New methods may be described in sufficient details. The statistical methods & the level of significance chosen shall be clearly stated. Oriental Journal of Physical Sciences¹ prefers to publish work that has been subjected to an appropriate statistical test at one level of significance.

Results and discussion:

Results and discussion may be combined into a single section. The result should clearly mention the findings of the experiments and discussion should provide an interpretation of the results and their significance with regard to previously published work.

Tables:

Tables should be self-contained and complement, but not duplicate information contained in the text. Tables should have short descriptive titles. It should be numbered consecutively and be cited in the text. It should be arranged in Microsoft Word format.

Title	Id	Val1	Val2
Title1	1	5	3
Title2	2	1	2
Title3	3	7	13
Title4	4	4	11

Conclusion:

A short section summarizing the major findings of the investigation. The purpose or hypothesis of the study stated earlier should be addressed.

Acknowledgement:

Acknowledgement will include the acknowledgement to the research team or any entity which has provided help during the work.

Funding Sources:

The section will include any funding sources along with the grant number (if any) provided to facilitate the research work.

If there are no funding sources, then following statement should be mentioned:

The author (s) received no financial support for the research, authorship, and/or publication of this article.

Conflict of Interest:

All authors are requested to disclose any conflict of interest including any financial, personal or other relationships with other people or organizations that can influence their work.

If there is no conflict of interest, then following statement should be mentioned:

The author(s) declares no conflict of interest.

References:

Reference style: AMA (American Medical Association)

1. References should be numbered consecutively in the order in which they are first mentioned in the text (not in alphabetic order).
2. References should be cited in the text in superscripts only
